

Agency
publishes draft
policy

```
graph LR; A[Agency publishes draft policy] --> B[Interest group chooses lobbying strategy]; B --> C[Interest group creates or provides technical information]; B --> D[Interest group creates or provides political information]; C --> E[Information persuades agency officials to revise policy]; D --> E;
```

The diagram is a flowchart with five rectangular boxes. The first box on the left contains the text 'Agency publishes draft policy'. An arrow points from this box to a second box in the middle-left containing 'Interest group chooses lobbying strategy'. From this second box, two arrows branch out to two separate boxes in the middle-right: 'Interest group creates or provides technical information' (top) and 'Interest group creates or provides political information' (bottom). Arrows from both of these middle-right boxes point to a final box on the far right containing 'Information persuades agency officials to revise policy'.

Interest group
chooses lobbying
strategy

Interest group
creates or provides
technical information

Interest group
creates or provides
political information

Information persuades
agency officials to
revise policy
